One last reminder/invite for tomorrow's webinar on pet products and pest control by Dr. Nancy Hinkle in partnership with the Entomological Society of America (ESA).

Please join us for our next joint webinar with the Societies (ESA, WSSA, APS). Dr. Nancy Hinkle is a professor and extension expert at the University of Georgia in the Department of Entomology. She will present a broad overview of the types of products available for flea and tick control on pets, considerations when selecting a product, and other related issues. As the extension veterinary entomologist for the state of Georgia, Dr. Hinkle is charged with researching and educating the public about ectoparasites that infest domestic and companion animals as well as pests of livestock and poultry. Her research goals include studying the biology, ecology, and behaviors of pests to develop innovative management strategies for animals that include chemical, biological, and cultural techniques.
